

# hillfarm

Hillfarm is a true family business with three generations working together to produce the farm's award winning cold pressed rapeseed oil.

The Fairs family have farmed in Suffolk for over 50 years and in 2004 became the first British farmers to grow, cold press and bottle their own extra virgin rapeseed oil. Today, their range also includes flavoured oils, mayonnaise and salad cream as well as bee-friendly honey.

Hillfarm uses only the very best seed varieties selected for their superior taste, golden colour and high nutritional value. Careful cold pressing in their solar-powered barn preserves their oil's naturally delicious flavour – which won a 2-Star Great Taste Award in 2020 – and its many health benefits. High in omega 3 and vitamin E, no other oil has less saturated fat. No other oil is more versatile either. Hillfarm cold pressed rapeseed oil can be used for frying, roasting, dressing or baking!
